NOTE FOR THE DCI

Bill:

[] reports that the Schlesinger presentation to the Murphy Commission was "balanced". He discussed the pros and cons of their recommendations without voicing strong opinions of his own. No further feedback.

We understand that Broomfield has an agreement from Ambassador Murphy to invite you to testify next week on the proposed Commission report. If this cannot be fit into the schedule, they will ask you to comment in writing.

Murphy is to call you in the next day or so to set the time.

Latimer advises that redrafting is still going on and compromises are being worked out, but cannot yet clearly foresee just where the Commission will come out yet.
